We've designed the perfect camp for your child, complete with all the fun, enriching activities they love, and the important safety measures and flexible hours you expect. And with more options to explore, including Day Camps, Academic Camps and Specialty Camps, you can design a one-of-a-kind experience that will make them shine!

Each week, students in kindergarten through 5th grade jump into action as they explore science and nature, become involved in creative and performing arts, and participate in sports and games. Our camp features a unique selection of indoor and outdoor activities and **field trips** that take advantage of resources in the local area. See our field trip section for our full list of offerings.

Give your child a jump-start to kindergarten by enrolling in our Kindergarten Enrichment program. We work on sharpening literacy and math skills, while also providing opportunities for your child to practice kindergarten etiquette through authentic play and collaborative learning. Students have a blast engaging in inquiry-based, hands-on activities that build upon foundational skills, such as science and engineering

Our specialty camps are packed with hands-on activities that offer experiences for campers to discover new skills and talents. Whatever your child's interests are, we have fun and unique activities for them to try!

Rising 5th – 6th grade campers take day camp to the next level as they expand their horizons, embark on new adventures, and most importantly have fun. Our exceptional program and dedicated staff create an environment that forges lifelong friendships and keeps our older campers engaged through stimulating activities and field trips.
