ENCHANTED CARE

Monthly Newsletter

A WORD FROM OUR PRINCIPAL

Thank you all for helping our school celebrate Earth Day last month. Together students at our school learned about plants and released ladybugs, discussing how they help our environment. Celebrating Earth Day as a community provides our teachers with many opportunities to relate science, math and literacy concepts to everyday life. As we move into May, we are getting our classrooms ready for a summer of additional enrichment for our preschool students and summer camp for our school-age students. We can't wait to spend summer with you and your children and hope you'll join us at the family activities we have planned this month!

Sincerely,
Kris Beirne

APRIL IN REVIEW

What a fun month we had! We kicked off April with the Week of the Young Child, which involved lots of engaging activities such as the opportunity to make granola bars from scratch. We had a blast!

Later in the month, we had the chance to visit the Franklin Park Conservatory. We learned about plants and butterflies, and getting to walk through the butterfly enclosure was a truly magical experience.

We also spent Earth Day with a very special celebration. After learning about ladybugs and how they are good for the environment, we released live ladybugs both at our school and down the road at The Inn at Olentangy Trail.

Finally, we wrapped up the month with our preschool and Pre-K plays. Our teachers worked hard to put them together, and our kids worked hard to learn all their lines.

“

LIFE WAS MEANT FOR GOOD FRIENDS AND GREAT ADVENTURES.
