Nobel Pleased to Offer CDA Program to Employees

During our recent Parent Surveys, some of you responded with valuable feedback asking us to invest back into our teachers through recognition, professional development, and support in providing the best in care and education for your children.

We are excited to share with you that Nobel is now offering the benefit of the CDA (Child Development Associates) Credential Program to any interested employee! The CDA is a hyper-focused program that guides candidates on best practices in early childhood education, focusing on these key areas of practice: safe and healthy learning environments, children's physical, intellectual, and social/emotional development, effective team work, professionalism, supporting children's behaviors, principles of child development, and developmentally appropriate practices.

Investing back into our teachers in various ways ultimately means happy supported teachers who love educating children. And happy, well-trained, connected staff members means consistency in the classrooms which benefits students and families!

Please stop by the office if you are interested in learning more about the CDA program and which teachers are participating in the program so you can lend your support!
