

Calling all Child Scientists!

At the Cognitive Development Lab, we study how kids learn categorization, words, math, and so much more! We would love to have you and your little scientist in for an appointment!

We offer:

- Both **in-person** and **virtual** appointments for kids age 4 to 9!
 - Extensive health and safety procedures and guidelines!
 - Free Parking for in-lab appointments!
- Gift Card compensation!

What to Expect:

We are currently conducting both **in-person** and **virtual** zoom studies for children between the ages of 4 and 9! We work with you to find a date that fits both your schedule and the type of appointment you are most comfortable participating in. You will receive a phone call or email the day before your appointment with further information and guidelines regarding your appointment. Appointments typically take less than an hour to complete and your child will receive a gift card for participating!

For more information or to schedule an appointment, email us at infants@osu.edu or fill out [this](#) form.
